About Us

BUILDING BETTER PLAYGROUNDS SINCE 2016

We are part of the Active8 Leisure group and have been building engaging playgrounds for schools, nurseries and public spaces across the UAE for over 10 years.

Designed and built in the UAE using European safety certified materials.

It's our aim to empower your children; to ignite their imagination & creativity and to develop their social & physical skills.

BoomTree's unique designs also use sustainably-sourced materials that are natural, durable and long lasting.

Why Choose Us

We Build with Purpose

Sustainably-sourced

We use high-quality European pressure-treated pine wood from responsibly managed forests.

Certified Safe

All our materials and designs meet strict EU safety standards, giving parents and schools peace of mind.

Built in the UAE

From concept to completion, our playgrounds are assembled right here in the UAE—ensuring quality control and local support.

Made to Fit

No two spaces are the same. That's why we design every playground to suit your site, your vision, and the children who will use it.

CASE STUDIES

Garage Play Space

THE BRIEF

A private villa owner was keen to include as many play elements as possible, despite the restricted footprint. She wanted climbing features, imaginative play options, and enough room for the kids to enjoy the space with their friends.

OUR APPROACH

We adapted the design to fit the space, connecting two play towers to form a single structure. Features included a rope climb, ladder, slide, and playhouse, plus a picnic table for games and role play. Natural materials helped keep the space light and welcoming.

OUTCOME

The finished space is now a well-loved play hub that fits perfectly in the garage. It's practical, sociable, and full of variety—exactly what they hoped for.

Backyard Playground

THE BRIEF

A private villa owner wanted to transform their garden into a fun, action-packed play zone for their kids — a place that encouraged both physical activity and imaginative play. The goal was to include a variety of play features while keeping the design cohesive and safe for children of different ages.

OUR APPROACH

We created a custom multi-level play gym that brings adventure to life. The structure features slides, swings, a rope bridge, rock wall, and pull-up ladders, all built from sustainably sourced, pressure-treated timber. The natural finish blends seamlessly into the garden while withstanding UAE's weather.

THE RESULT

The result is a backyard that's become the ultimate hangout spot for the kids and their friends. It's dynamic, safe, and built for years of play

TESTIMONIALS

Client Testimonials

TREE

"We wanted something fun, safe, and lasting for our kids, and BoomTree nailed it. The whole process was smooth from start to finish, and the end result exceeded our expectations. It's beautiful, sturdy, and the kids can't get enough of it."

Mariam, Dubai Villa Owner

"BoomTree completely transformed our backyard! The kids have their own little adventure zone now! The design fits perfectly with our garden, and the quality is incredible. It feels like a mini park right at home."

Saif, Abu Dhabi Villa Owner

"BoomTree created the most amazing playground for our villa. The kids spend hours outside now, and it's become the neighborhood favorite. The quality and attention to detail is outstanding."

Sarah, Private Villa Owner
